Lieut. Raymond Deston, USMR

Chief, Central Information Division

SUBJECT:

R&A Documents --

In reply to your request of 26 April 1945, I would like to give you the following information:

Your requests for R&A documents #2810, #206, #760, #2965, and #764 has been forwarded to Mr. Dunaway's Office of R&A Branch. These reports will be sent to you by Miss Hornstein in Mr. Dunaway's Office. That is the distributing office for the R&A Reports.

Your requests for documents M-245, M-258, and M-257 has been forwarded to Mr. Henry Field's office. His office is the distributing office for reports of this kind.

Your request for documents A-48723 and A-51359 originate in SI and has been referred to Mrs. Art, Ext. 2391 in SI. If you will contact Mrs. Art about these documents she will see that your request is filled.

Document 120284, R&A 60 is not available for distribution by your office to the FBI. This document would involve the THIRD AGENCY ruling and therefore it cannot be transmitted to the FBI.

I believe, however, the above information will enable you to receive all but 1 of your requests. If CID can be of further help to you please call on us.

SECRET

FLIGHT OF AXIS PERSONNEL TO ARGENTINA

An article which was published in the newspaper, "El Pueblo Argentino", Montevideo, Uruguay, on September 25, 1944, alleged that numerous Nazi officials were presently hiding in Argentina under assumed identities. Among the individuals listed as Mazi officials were Colonel Walter Osterkano, Major General Hans Steuderann, one Dr. Frick, Karlheinz Von Dufais and Gottfried Sandstede.

One of the allegations in this article was to the effect that Major General dans Steudemann was stopping at the "Hotel Adam", Calle Maipu 1288, Buenos Aires. He was said to be using false Argentine documents in the name of Pedro Cassmann. Investigation at the "notel Adem" has failed to uncover any record of any individuel named Hans Steudemann or Pedro Cassmann. No record of the issuance of documents in the name of Pedro Cassmann has been located.

One Dr. Frick, an engineer, director of the steel works at Bochum, Gerrany, was alleged to be living at the "German Riding Club", Calle Ecneverria, Belgrano, buenos Aires, and was said to visit the German Embassy. It was also claimed that he was the bearer of a wichtenstein passport in the name of Eduard Reden. Investigation at the "German Riding Club" indicates that Dr. Frick does not reside there at the present time. The German Embassy in Buenos Aires has been closed since the severance of relations between the Argentine and German governments in January 1944 and the Embassy is guarded twenty-four hours per day by the Buenos Aires Police Department. No record of the passport or other documents in the name of Eduard Reden has been encountered.

Inquiries in German circles in Buenos Aires have developed no information regarding any of the individuals alleged by this article to be seeking refuge in Argentina.

Information as to the original source of this article has not been developed. It is believed that the story was originated a hy the Communist Party in Argentina. It was reprinted in five clandestine Communist Party newspapers in Uruguay and Argentina.

SECRET

RR: GOTTWRIED SANDSTIDE, with elieses Gottfried Sanstede, Godofredo Sandstede

Gottfried Sandstede was born in Oldenburg, Germany, on January 25, 1902. He was the son of Georg Sandstede and was married to Frieda Brandes.

Sandstede was the subject of numerous reports emanating from South America in 1939, 1940, and 1941, due to the fact that he was very active in German projectance work. He was also a German espionage agent.

Wilhelm you SciClitz, a confessed German agent who is presently in the custody of Argentine authorities, advised that he met Sandstede in Berlin, Germany during the last part of 1936. Sandstede had apparently lived in Argentina prior to this time. Von Seidlitz traveled from Berlin to Buenos Aires, Argentina, with Sandstede arriving in Buenos Aires December 15, 1936. At this time, both Von Seidlitz and Sandstede were employees of the German Railways, and Sandstede was head of this agency in Argentina. They were associated together in the offices of the "Central European Travel Agency" which was a subsidiary of the German Hailways at Calle Florida 439, Buenos Aires, Argentina.

In 1939 Sandstode was called to Germany, apparently by the German Government. Von Seidlitz stated that he returned to Argentina on August 25, or August 26, 1939, with the title of Press and Propagunda Attache of the German Embassy, Buenos Aires, Argentina.

With the outbreak of war between Great Eritein and Germany in September, 1939, Von Seidlitz determined to return to Europe. On this occasion he requested Sandstede to assist him in obtaining passage, but Sandstede advised him that it was his duty to remain in Argentina, since he could be of more value to Germany in that country by functioning as an espionage agent than by enrolling in the German Army. Sandstede advised him that he, Sandstede, had already been functioning as a German agent for some time. He was active in obtaining shipping information from Argentine harbors for forwarding to Germany through the German diplomatic power and by means of the Lati Airline.

Von Seidlitz agreed to assist Sandstede in obtaining this type of information, and thereafter he turned over a number of reports to the subject.

Another individual who was reported to have worked as a German agent with Sandstede was Heinz Lange, a known German agent who is presently believed to be in hiding in Argentina. Lange was cooperating with Sandstede in this regard as early as May, 1940.

One Hahn, an employee of the D.N.B. (German News Agency) Buenos Aires, was reported to have worked under Sandstede in obtaining general intelligence information in Argentina in the last part of 1940. The

AND THE PROPERTY OF THE PROPER

SECRET

extent of Halin's activities in this regard has not been clearly defined.

In order to contect agents working with him, Sandstedo retained an office at the "Central European Travel Agency" and he received a salary of \$3,250.00 monthly there in addition to his salary as an Attache of the German Embassy. There is some indication that the payments made to Sandstede at the office of the "Central European Travel Agency" were payments for distribution to propagance and espionage agents.

In addition to his activities as an espionage agent, the subject was active in directing German propaganda in Colombia, Peru, Brazil, and Argentina. During the last part of 1940, Sandstede also maintained contact with Italian diplomatic officials in Argentina for propaganda purposes.

In August, 1940, Sandstede held a meeting in Buenos Aires, Argentina, with dans Henning von Kossel, a German diplomatic official from Rio de Juneiro, concerning the heasures to be adopted by the German Government in case the United States entered the war. It was agreed at that time that a press campaign would be undertaken in Brazil regarding the bad treatment accorded to Regroes by the United States through the "Transocean News Agency" and local Brazilian agencies. It was believed that this line of propagends would appeal to numerous Brazilians with colored blood. These plans were accepted in Brazil and arrengements were made to carry out the same type of propagenda in Peru, Rexico, Bolivia and other countries with a large Indian population.

In addition, Sandstede agreed to reinforce the German and Italian influence in the Longshorement Union in Argentique.

On April 4, 1941, a number of prominent Nazis in Argentina are reported to have held a meeting at the German Athletic Club, Calle Cuba, 2410, Buenos Airos, Argentina. Sandatede and Reigion Vollberg, who was need of the Nazi Party in Argentina, made specches.

On April 23, 1941, prominent Mazis from all parts of Colombia neld a meeting in the upper floors of the "Almacen nelda", Manizales, Colombia. Sandstede was in charge of this meeting and is reported to have arrived in Colombia, using an assumed have and talse passport. The subjects under discussion at this meeting are not known.

During the middle of 1941 a report was received to the effect that one Werner Loewer, Calle Pampa 3799, Buenos Aires, Argentina, was a German agent working under Sandstede. Loewer was described as a chamist for the German firm "Thyssen Lametal Company", Calle Paseo Colon 532, Buenos Aires, Agentina. The nature of the duties performed by this individual is not known.

Membership lists of the Fascist organization "Afirmacion Argentina", Buenos Aires, reflect that Sandstede was one of the leaders in that organization.

On August 19, 1941, the special committee of the Chamber of Deputies of Argentina ordered the subject to eppear before that body for questioning concerning his activities. Sandstede claimed that he had extra territorial rights as a result of his position as Press and Propaganda Attache of the German Embassy, and he refused to appear. The investigating committee then took the view that inasmuch as he was still head of the "Central European Travel Agency" that he must appear, and a warrant was issued for his arrest.

On August 26, 1941, Sandstede departed from Argentine by Condor plane for Brazil, apparently in order to avoid questioning. On September 4, 1941, he left Brazil for Europe by Lati plane.

Prior to his departure from Argentine, Sandstede instructed Wilhelm.
You Seidlitz to take Charge of the saip reporting service which he
had been operating. You Seidlitz agreed to do so, and Sandstede
paid him 12,000 Argentine pasos (\$3,000.00) as an advance for expenditures.

Sandstede also furnished Von Seidlitz the following mail drop to be used for espionage communications: Jannick Ortner, Wilnelmstrasse 102, Berlin, Gernany,

Information recently developed in Argentina is to the effect that during September, 1942, Sanastede was traveling for the German Government in Spain and Portugal. The nature of the work being performed by him tagge was not disclosed.

During August, 1943, one Rudolfo Ademeo was arrested by Argentine authorities while operating an unauthorized radio transmitter in the vicinity of Euchos Aires. Anadeo is reported to have been an associate of Sandstede when the subject was in Argentine. Apparently, this station was simply an unauthorized anateur station and not a clandestine radio transmitter.

According to accounts published in the German language newspaper "Doutsche La Plata Zeitung", Buehos Aires, on May 11, and May 12, 1944, Sandstede was killed while serving in an armored grenadier regiment in the German Army on the Eastern Front. The exact date of his death was not disclosed.

It has been suggested by various sources that the report of Sandstede's death might possibly be part of a scheme to enable him to return to Argentina under an assumed name. No information is available to show that Sandstede is not in fact dead.

The description of the subject is as follows:

Organisation Chart of German Foreign Office

Attached is an organization chart of the Corman Foreign Office. The material is prepared from cortain Top Secret material which has been confirmed from other sources. A copy is being sent to 8. I. You will note that it has been dated back to July let, even though is much today. The July putsch is, of course, responsible for this.

However, since it is planted to issue another chart in the not too distant fature, the H.I.S. representatives have indicated that any criticisms, additions, or changes will be appreciated. If you have any suggestions, will you kindly forward them to the writer as seen as possible.

CONTINUE MOVEMBER 3, 1944

DEPARTMENT 50 CHILLAN DIVISION OF INVESTIGATIONS

Jorge Garreton Garreton, former Director General of the Division of Investigations at Sentiago, Chile, was replaced by Colonel Labarca when Garreton came to the United States for a visit during July, 1944. While Garreton has returned to Chile, he has not yet assumed the directorship of the Division of Investigations, and it has been reliably reported that he departed on October 20, 1944, for a six weeks tour throughout Latin American as the personal representative of President Rios. It has been said that Garreton will return as Director of the Division of Investigations upon the completion of this trip.

Department 50 of the Division of Investigations has been headed by <u>Hernan Barros Bianchi</u> both under Garreton and Labarcs. There has been no indication that Barros will be removed from tals position.

Horace W_Potors

Antonio Santa Orga Valentin h. Jar las

Regarding your request for information on Antomio Santa Cruz, the FBI advises they do not have a record of the individual.

The Eureau advises they are still checking for information on Valentin R. Carlias.

Concerning Hailio Cervi and his son of Mexico City, the following is a report from the IBI on these individuals:

"The Eureau has a record of an Emilio 3. Cervi who was head of the Sinarquista movement in Mexico, and was responsible for publication of a Sinarquista pamphlet. Cervi was born in Tuxpaur, Versoruz, Mexico and now resides at Orziaba 21, Mexico City. Cervi is a lawyer, 57 years old, and resided in the U.S. from 1925 to 1929.

"The files of the Bureau reveal that Enillo Cervi (Cercia); father of Foilio S. Servi above, is approximately 77 years old. He has been seen attending a meeting of the "Casa de Espana", a society whose members are known to be pro-Franco. This society propagandized for the Spanish Falance and disbanded shortly after the U.S. ontered the War."

From fall # 18

ACCION REVOLUCIONARIA MEXICANISTA (CAMISA DORADAS)

This Tarty has been known by the following names other than the above: Ios Dorados, Gold Shirts and Brown Shirts. This organization was first founded in 1931-1935, and was headed by General Micolas Redriguez. As the old Gold Shirt organization, it was a strongly nationalistic group and was involved in the Gedillo revolt. This Party often clashed with organized labor and in the year 1935 there were two armed assaults at the offices of the Communist Party. About ten persons died as a result of this conflict. The following year, about the middle of 1936, President Cardenas ordered this Party to be dissolved and from thereon, when it did function, it did so as an illegal secret party. Colonel Aniceto Lopes is now associated with the organization. It has been used as a vehicle of anti-Semitic propagands and is said to have Fascist sympathies.

VANGUARDIA MACIONALISTA

This organization advocates neutrality for Mexico. This thesis, however, is not genuine, as it has been advanced as purely German propaganda. The organizer of the Party is Adolf Leon Ossorio who was on the pay roll of the German Legation as a propaganda agent. It also has an apparent anti-Jewish policy and seeks to prejudice the Mexicans against the influence of the United States. It is in close contact with the Partido de Accion Macional, representing it as a shock or action force. Mitler has been openly praised by officials of the Vanguardia Macionalista for his so-called great accomplishments in Europe.

FARTIDO DE ACCION NACIONAL

Fanuel Somes Morin is President of this Party. This Party is composed chiefly of the professional and business elements of lexico and is said to often furnish the intellectual leadership for the Sinarquista group. It has been known in the past to be allegedly anti-laxis, anti-Communist, and opposed to American influence in Maxican affairs. However, it has also been known to manifest certain sympathies in the direction of Pascisma. The organization gives considerable study to rural developments, social problems, and general questions of economic and political policies affecting the Maxican nation.

From the information furnished, it has not been possible to establish the identity of the following organisations:

Confederacion de la Clase Media
Centro Patronal del Distrito Foderal
Centro Patronal de la Comarca Lagunera
Partido Social Desocrata Mexicano
Asociacion Espanola Anticomunista y Antijudia
Juventudes Macionalistas Lexicanas
Union (Confederation?) Macional de Veteranos de la Revolucion
Union Macional Mexicana de Yucatan
Partido Macional Civilista
Comite Pro-Maza
Movimiento Unificador Macionalista

KARIA ALFARO:

A Maria Alfaro (De Mata) is listed as a Commist and holds the position of Assistant Socretary of the Communist Revolutionary Union. This person is also a director of the Maccela Atlantici.

CARMEN CALEROS

The above person is associated with the Partido Anti-Resisctionista Accion. This individual is an elderly woman physician and has been active in different Fascist groups.

ANTONIO F. ESCOBAR.

The above Antonio F. Escobar was a member of the "Los Dorados" organization in Mexico City. He is reputed to have been one of the organizers of "Los Dorados" and indications are that his sentiments are pro-Fascist. He also is associated with the "Union Nacionalist Lexicans."

∨ GUSTAVO SARRZ DE SICILIA:

This person is said to have been the leader of the Mexican Fascist Party which he started to organize in November 1942 in Jalopa, Veracrus, Mexico. At one time this organization was reported to have had four hundred twenty branches. In professional life this individual was an engineer.

/DIEGO AREMAS GUZHAR :

The above person is reportedly associated with the Mexico City periodical, "El Eucoo Dia;" also "El Hombre Libre," a Cerman subsidized newspaper. The magazine, "El Eucoo Dia," is a propaganda instrument of the Hazis in Mexico, and its publication was suspended.

GENERAL MICOLAS RODRIGUEZ:

This porson was one of the founders of the old "Los Dorados" organization (also known as the "Sold Shirts") which was subsequently outlawed by the Exican Covernment and never legally reinstated. Its off-spring was the "Accion Revolucionaria Rexicanista." The General was very anti-Jewish and his organization was used to dissimulate anti-Semitic literature. The General was also involved in the Cedillo Revolution and is reported to come directly under German influence. General Rodrigues died in 1940. Dr. A. D. Cook of Laredo, Texas, is said to have been associated with General bicolas Rodrigues.

FRANCISCO CAYON Y COS.

Francisco Cayon y Cos is reported to be a close friend of Ibanes Serrano, a high ranking confident of General France of Spain and a member of the Falange of the "Liga do Hispanidad Ibero Americana." This organisation is to be found in all Central American countries. It is pur orted to be a civic and cultural organization for the purpose of defending Mexican Hispanic culture and the promotion of the union of Spanish-American people. This organization is financially

supported by Danes Serrano and comes under the influence of Palangist ideology. This person is likewise a Chief by the Propaganda Service of the Spanish Falange.

GABINO VIZCARRA CAMPOS:

This person may be identical with a Cabino Vizoarro who is an associate of German agents and a responsible official in General Almazan's campaign organization.

DEG. H. CARRASCO:

This person way be identical with Ecocrato Carrasco who was in charge of financing and paying of all propaganda operations for the Mazi-Communist espicange setup in Ecoco during 1941 prior to the German-Russian Nor.

LECK OSSORIG:

This person is reported to have been an organizer of Mexican-Nasi activities and a leader of the Perican-Pascist Party which was dissolved by the Cardenas Government. A Leon Osserio, Niagra S, Mexico City, may be identical with Adolfo Leon Osserd at the same address.

ROBERTO CARRIEDO:

A Roberto Carriedo Rosales living at Balma Morte 402, Mexico City, is reported to be sympathetic with the "Accion Estional."

GENERAL STIALIO GUTIESTEZ:

A person bearing the name of Eulalio Gutlerres was formurly prosident of the Grand Liberal Party in Maxico. It is reported that General Gutlerres was associated with General Antonio S. Villareal in a contemplated revolutionary movement. General Gutlerres was once the Provisional President of Maxico, and instigated revolutionary activity at Durange on March 16, 1929.

MANUAL GOATE MORIE

This person is the leader of the "Accion Hational" organization which is regarded as one of the most important oppositionist groups in Mexico. It was founded in 1933 as a non-political organization, and its object was to lay the basis for a "new spiritual rebirth of citizenship." It claims a membership of forty thousand. Its main strength is to be found among the professional and business men of Mexico. Morin is reported to be a political advisor of Ibanes Serreno and was at one time a member of the "Council of the Hispanidad Movement."

Sufficient information was lacking to establish a record on the following individuals: Juan B. Marzal, Orlando Herrora Moguel, Enrique Garcia Rabolledo, General Daniel Rios Zertuche; General Miguel M. Ramos, Genaro Garibar, Lig. Fernando de la Frante, Alejandro Clavarria, Sverardo H. Hernandes, Ricardo A. San Bartolome, Lic. M. del Villar, Pablo Massoni Nani.

L/20/44 TELEPHONE CONVERGATION BETWEEN LT. DUSTIN'S SECRETARY/(R & A)

AND B. A. TOWELL

12. Dustin's secretary advised me that interrogations of passengers returning on the Gripsholm, March 6, were not in R & A files but it was possible that the Foreign Experts Group in New York might have those interrogations. She is contacting New York and will advise.

"Matchtowers publication

Confirming our telephone conversation of today, I am writing this renorandum requesting that you inquire discreetly in order to cover the source of this request as being from ClS as to whether a journal entitled "matchtowers, publication of the religious sect of Jehovah's mitnesses, is printed in French or in any native ifrican language. Copies of this journal have been seen in West Africa but to our knowledge no other place in Africa.

It has been suggested that a catalog of all Jehovah's Witnesses publications might be secured from the Watchtower Tract and Bible Society, Brooklyn, E. Y. However, as you suggested, I believe the Library of Comgress would be the best source.

TO : Mr. Horace Peters (SI)

DATE: 23 February 1944

FROM : Stanley P. Lovell

SUBJECT: Secret Message Techniques

This Branch is engaged in a survey of the above subject, including secret inks. Obviously, the first thing we want is a survey of the present state of the art. We have canvassed every interested agency except the P3I.

We have, on 22 February 1944, shown our devices and sabotage weapons to Mossrs. Coffey, Flanagan and Parsons of the FBI. These gentlemen suggested that an official request from you for entree to their laboratory on the above subject of secret inks, etc., would be well received.

The study of this subject is in the hands of one man only. He is a chemist and ink expert of international repute and for security reasons works entirely in a secret laboratory in Rochester, N.Y.

It is suggested that opening this subject to our appointes will not be entirely a gift on the part of the Bureau to is, but that highly interesting information will thereby be made available to the FBI laboratory.

Unfortunately, speed is very necessary to prevent duplication of effort, and I would appreciate a high priority action on the above request.

THEHONE COEVERSATION BETWEEN UR. PETERS AND DR. STANLEY LOVELL

Mr. Lovell intimated that his primary purpose in wanting to go to FBI would be to explore. He wanted to give them some techniques of SO work against industry which have various advantages over many techniques, yet are very simple. Lovell stated this pertained to activities against American industry. Lovell stated he had an arsenal of weapons which he was going to show Friday at the Maryland Research Lab in Area F. Mr. Peters asked if they could provide transportation for Hoover to this show, to which Lovell replied they could note He added it was only 12 miles. Mr. Peters asked him if he knew when the meeting on Friday was. Lovell stated he did not know the exact time. Lovell added he would factor did not come to the show, that it was being put on for Theater Officers, and that it would probably be a repeat performance for anyone on Ecover's level. Mr. Peters said he would tell Horren that Lovell wanted to come to his office and explain the techniques. Mr. Lovell said he thought he had some new information that FEI didn't know about. Lovell said he would like to go into the name subject later. Lovell said he could carry a satchel full of devices but he did not want to do that. Mr. Peters said he would see Tamm tomorrow. Lovell asked for an appointment with FBI for tomorrow afternoon.

SUBJECT:

Photostat material relating to German Police Communications system

The photostats of the Nachrichtenmittel Der Ordnungspolizei, which you forwarded to Dr. Langer on 22 October, have now been received in this office.

Although your memorandum is stamped secret, the photostats are apparently unclassified. We should like to know if this means that the photostated material is free, as we wish to include material from this document in a restricted publication.

REGERANDUM For Dr. Makter L. Langer

ENBLIECT: Photostat Material relating to Corman Police Commanioation System

From: I-2 Branch

The subject material was picked up by Sritish Emperial Consership in Trinidad. We would appreciate it very much if you would arrange to have those documents translated, not only for the use of your Branch, but also for X-2, SI, SC and others that may be interested. For your information, the Communications Sivision reports that there is nothing new in this material and that they are not interested in it. However, it has convered to us that, aside from the technical aspects, it may contain sums information of strategic value.

OFFICE OF STRATEGIC SERVICES

INTEROFFICE MEMO

TO: Mr. Horace W. Peters

DATE: August 5, 1943

FROM: G.W. Cottrell SWC

SUBJECT:

I attach a copy of the General Order, no. 9, supp. 5, issued June 10, 1943, establishing the Biographical Records Section. As I explained over the telephone, the term 'SI' as used in the Order and appendix was designed to include X-2.

GENTRAL CRUER BUZBER: 9, Supp. 5 ISSUED: 10 June 1948 EFFECTIVE: 8 June 1943

LIST S

SUBJECT: Biographical Records.

- 1. There is hereby established in the Central Information Division of the Research and Analysis Branch of the Office of Strategic Services a section to be known as Biographical Records.
- 2. Biographical Records shall be responsible for the systematic collection and recording of information about foreign persons abroad and in this country who may be of interest for purposes of psychological warfare and military occupation, and generally for the properation of such lossiers on persons as may be required by the various operations of OSS.
- 8. Biographical Records shall make the fullest possible use of axisting facilities of OSS in the collection and evaluation of the material.
- 4. All name information now available in or hereafter... acquired by the reveral branches of OSS shall be systematically made available to the new section. The procedure to be followed with respect to SI material is set forth in Appendix "A" attached.
- 6. The personnel and files of the Geographic Index of Persons in 31 are hereby transferred to the new section.
- 6. The personnel and budgetary requirements for the section are hereby approved as submitted.

Appendix "A"

Relationship of SI Material to Biographical Records

The following procedure shall be followed in handling biographical data derived from SI sources:

1. SI material (other than operational and strictly CE records and material) is to be made available to ER. Unless authorized to include such data, ER will omit any reference to subversive or undercover activities of individuals, except where an individual is a notorious agent, or otherwise is so conducting his activities that secrecyrospecting them is useless or unnecessary.

- 2. Where an individual is of interest to BR, and is also engaged in undercover activities, BR may record straight biographical data and may also indicate:
- (a) the subject's political views e.g., "Pro-Ally" "Pro-Axie;"
- (b) his trustworthiness e.g., "can be trusted" "cannot be trusted;" and
- (c) his willingness or unwillingness to cooperate, or similar phrases, provided the comments are of a type in general use in the records and are not calculated to suggest undercover activities.
- 8. In cases where material regarding subversives is made available from S1, an appropriate punch should be made in IB4 cards to indicate the individuals in under observation by SI.
- 4. ER shall be free to record any data on subversive activities received from sources other than SI, and shall arrange to make such data available to SI.
- 5. In certain cases where evidence of the subversive activities of individuals would be embarrassing to CE operations, the evidence should be suppressed upon the request of CE.

Mr. G. W. Cottrell

X-2 Haterial .:

Be greatly expressinte the photostets you sent us recently of your card file on the Union of South Africa.

I am advised by Mr. Seiferhold in our New York office that we have not received from you any material relating to the follow ing countries:

> Arabia /Jetvia Albenia Lran Iraq Afglanisten >liedarancer Greece inda v Cyprus Croto , Ireland Australia X Cootland Y Hos Zealand YPar East (except a few manes in China) x Lithmenia Africa (except northern section and Union of So.Africa)

It would be appreciated if we could have photostate of external you may have a: there areas similar to that which you gave us for the Union of South Africa.

A some to Holland.

July. 29, 1943

MEMORAMBUH for Mr. David F. Seiferheld

SUBJECT: Enclosed photostats

- 1. The enclosed photostats from Mr. Controll explain themselves.
- 2. Cottrell called several days ago for permission to send photostats of his X-2 file to South Africa at the request of the S.I. man there. Mr. Murphy had no objection, and I thought it might be a good idea to ask for an extra set for us, to enable you to check against your files. Cottrell says that you already have this data, but it seemed to me an economical opportunity to make certain of that fact.
